

Greta Rakauskaite

Front-End Developer

📍 The Netherlands ✉ greta.rakauskaite0@gmail.com
📄 github.com/GretaRa 🔗 linkedin.com/in/greta-rakauskaite

● Profile

Front-End Developer with a Biology background, self-taught in React, JavaScript, and modern CSS. Quick to adapt and learn, bringing an analytical mindset to a junior role in the Netherlands.

● Skills

React

JavaScript (ES6+)

CSS3

HTML5

Tailwind CSS

npm

Git + Github

REST API Integration

● Projects

Portfolio Website gretara.github.io/greta-portfolio

Responsive personal site built with React and Tailwind CSS, showcasing my skills, projects, and resume. Designed and built end-to-end, covering both front-end development and UI/UX decisions.

Trip Planner App trip-planner-black-kappa.vercel.app

Full-stack trip planning app with user auth, a day-by-day itinerary builder, and live weather per destination via OpenWeatherMap. Built with React, Supabase (auth + Postgres), and deployed on Vercel. Directed using AI-assisted tooling (Cursor).

Fashionhub Online Shop fashion-hub-project.vercel.app

Functional e-commerce demo built with React and Tailwind CSS, pulling live product data from the fakeStoreApi. Focused on clean component structure and a smooth shopping flow.

Weather App gretara.github.io/weather-app

Web app showing live weather by city search or geolocation, using the OpenWeatherMap API. Focused on async data handling and API integration.

● Education

BSc Biology, Radboud University

Built a foundation in analytical thinking and attention to detail through research-based coursework, skills now applied to debugging and structured problem-solving in development work.

● Languages

English

Dutch (A2)
